

GÖKAY DENİZ TASLIOĞLU

Istanbul, Türkiye | <https://www.linkedin.com/in/gokay-deniz-taslioglu/>

SUMMARY

Computer Engineering and Business Administration double major student at Koç University, ranked 69th in Türkiye in the 2024 YKS. Experienced in robotics, UAV systems, embedded software, and autonomous technologies, with project leadership experience and competition achievements including 2nd place at TEKNOFEST and 3rd place in the TÜBİTAK 2204-B finals. Selected for and completed the Koç University and Northwestern University Quantum Program. Combines engineering experience with leadership in student teams and technical events.

EDUCATION & ACADEMIC PROGRAMS

KOÇ UNIVERSITY — Istanbul, Türkiye

Double Major in Computer Engineering and Business Administration | Sept 2024 – June 2029

Cumulative GPA: 3.16 / 4.00 | YKS 2024 Türkiye Rank: 69th

Language Proficiency: KUEPE: 82/100 (Professional Working Proficiency)

KOÇ UNIVERSITY AND NORTHWESTERN UNIVERSITY — Istanbul, Türkiye

Quantum Program | September 2026

- Selected for a quantum computing and information technology curriculum co-organized with Northwestern University.
- Completed coursework covering quantum algorithms, quantum information theory, and physical quantum architectures.

DENEYAP TECHNOLOGY WORKSHOPS — Tokat, Türkiye

3-Year Comprehensive Engineering Curriculum | 2021 – 2024

Focused on Robotics, AI, IoT, Embedded Systems & Rapid Prototyping.

BİLSEM (Science and Art Center) — Tokat, Türkiye

8-Year Special Education Program | 2016 – 2024

Focused on scientific research methodologies, advanced mathematics, and STEM projects.

HONORS & AWARDS

- Finalist, European Rover Challenge (ERC), 2025
- 2nd Place in Türkiye, TEKNOFEST Inter-High Schools UAV Competition, 2022
- Finalist, TEKNOFEST Inter-High Schools UAV Competition, 2021
- 1st Place in the Region and Honorable Mention in Finals, TÜBİTAK 2204-B High School Research Projects, 2020
- 1st Place in the Region and 3rd Place in Türkiye, TÜBİTAK 2204-B High School Research Projects, 2019

ENGINEERING & PROJECT EXPERIENCE

AgriMind Project — Istanbul, Türkiye

Software & Drone Team Leader | 2026 – Present

- Leading the drone software team to design autonomous flight routines and aerial imaging workflows for precision agriculture.
- Integrating YOLO-based computer vision models with GPS telemetry to detect crop diseases and map real-time field data.

KU Rover Team (European Rover Challenge) — Istanbul, Türkiye

Software & Systems Engineer — Drone Subsystem Lead | 2025

- Led the development and integration of an autonomous reconnaissance drone subsystem for rover-supported field operations.
- Developed computer-vision and image-processing pipelines to support autonomous navigation and environmental perception.

Aviation and Space Workspace — Team Balıca-60 — Tokat, Türkiye

Team Lead & Embedded Software Developer | 2018 – 2023

- Joined in 2018 as a team member and became Team Lead in 2021, overseeing end-to-end UAV design, electronics, and software development.
- Led the core competition team to secure 2nd Place in Türkiye at the TEKNOFEST UAV Competition, while mentoring junior students and managing flexible team operations.
- Configured ArduPilot flight controllers, custom telemetry systems, and Python-based navigation scripts alongside technical documentation.
- Authored technical design reports, system architecture documentation, and flight test evaluation reports.

LEADERSHIP & VOLUNTEERING

T3 Foundation (Türkiye Teknoloji Takımı) — Istanbul, Türkiye

Deneyap Practical Exam Jury Member | 2026

- Evaluated student candidates on practical engineering design, algorithmic thinking, and hardware prototyping under timed examination conditions.

KUASAR Space Robotics Club — Istanbul, Türkiye

Galactic Summit Coordinator | 2026 – Present

- Coordinated the Galactic Summit, managing corporate sponsorships, communication with senior executives and speakers, and event operations.

Koç University Marketing Club — Istanbul, Türkiye

KAMP'27 Senior Member & Coordinator | 2025 – Present

- Serving as Event Coordinator for KAMP'27, managing event operations and logistics for a major career summit hosting 500+ attendees and C-level speakers.
- Acted as a Mentor in KAMP'26, guiding 12 participants through seminar agendas, event navigation, and campus orientation.

AIESEC Istanbul — Istanbul, Türkiye

Marketing & Corporate Outreach Team Member | 2025

- Conducted B2B corporate outreach in the incoming Global Talent (iGT) department to pitch international internship programs to local companies.
- Contributed to marketing campaigns and outreach strategies to promote organizational initiatives and boost brand engagement.

SKILLS, TRAININGS & LANGUAGES

Programming Languages: C++, Python, JavaScript, HTML/CSS

Robotics, UAV & Hardware: ArduPilot, Computer Vision / Image Processing, Flight Control Systems, UAV Electronics, Microcontrollers, Control Systems

Domains & Specializations: Autonomous Navigation, Quantum Information Fundamentals, Web Fundamentals, Technical Report Writing

Trainings & Certificates: Sabancı University IEEE Work in Progress (2024), Ford Otosan Career and Development Week (2025), Youthside Project Writing Education (2025), Koç University Business/Investment Seminars (2025)

Languages: Turkish (Native), English (Advanced / KUEPE: 82), German (Elementary - A1)

EXTRACURRICULAR INTERESTS

Music: Performing Electric Guitarist (Weekly live band performances at local venues)

Hobbies: Space Robotics, UAV Piloting, Open-Source Tech Projects
